Setting Budgets

Kim, along with three of her friends, is going to move to New York City next summer. They are all very excited about the move, but they are having some money problems. One of the biggest problems is the amount of money that they have to spend on rent. There are four of them, and a two-room apartment in Manhattan costs almost $3,000. Three thousand dollars is a lot of money to spend every month. Because of this, the friends have been saving money for the past three years. Kim’s money, together with the others’ funds, is probably going to be enough to pay for half a year. In this way, they don’t have to worry too much about finding jobs right away. Kim and her friends want to be stage performers on Broadway, but they will have to work hard to make it. They have to make a reasonable budget for themselves and stick to it.
